Adinda Saraswati

Biotech Project Manager at Bakingworld | LPDP Awardee PK-211 |
The University of Edinburgh, MSc Biotechnology
Kota Tangerang, Banten, Indonesia

Summary

From executing a project strategically to developing a product that's not only profitable but acceptable to the public, I'm your heroine! With extensive experience working with many personalities under many uncertainties, I am capable of achieving success by tailoring seamless communication with multidisciplinary teams. I am not a green flag – I am the whole forest!

Experience

BakingWorld.id

1 year 3 months

Biotech Project Manager

September 2025 - Present (9 months)

Kota Tangerang

GenBio is a non-profit organization with a primary focus on biology-related education for public health.

- Directed and executed large-scale public health and nutrition training programs across four regions in Indonesia with over 1,000 participants, including timeline, budget, and logistics management to prepare market entry through awareness-building initiatives; currently scaling outreach strategy to reach 5,000 individuals nationwide.
- Managed end-to-end research & development of a probiotic beverage product, including organoleptic assessment, product development, product knowledge material, market research, and quality control to align with consumer health needs and regulatory standards.
- Designed and executed a quantitative study evaluating product efficacy, generating data-driven insights to support product validation, commercialization strategy, and improvements.
- Executed copy and content writing for event publication and promotional materials, including digital and physical branding engagement, such as banners, backdrops, t-shirts, and brochures to boost public awareness.

- Collaborated with cross-functional stakeholders (health professionals, government, sales, public relations, and media) to translate scientific concepts into customer-facing educational and promotional materials.
- Coordinated large-scale distribution of 20,000+ health education materials, supporting product awareness and community engagement.

Biotech Project Specialist

March 2025 - September 2025 (7 months)

Tangerang, Banten, Indonesia

- Planned and executed public health education events, including budgeting, coordinating stakeholders, and translating scientific information into accessible communication for public and customer audiences to draft event promotional materials.
- Developed strategic digital health campaigns, from literature reviews for biology education content, reaching 8,000+ community members and generating 21M+ impressions, supporting product awareness and engagement.

McKinsey & Company

Consulting Leadership Development Program (CLDP) McKinsey & Company X Mata Garuda LPDP

June 2025 - August 2025 (3 months)

Indonesia

Part of the Consulting Leadership Development Program (CLDP) 2025 by McKinsey & Company and Mata Garuda to train LPDP awardees on mastering structured problem-solving techniques, effective communication strategies, and presentation skills from McKinsey's partners and associates.

University of Edinburgh School of Biological Sciences

Graduate Research Student

May 2024 - August 2024 (4 months)

Edinburgh, Scotland, United Kingdom

- Investigated nitrogen uptake mechanisms for nutrient acquisition in plants using molecular biology approaches, including phenotypic profiling and gene expression assays for yield improvement, with a focus on enhancing nutrient efficiency in breeding programs.
- Generated and analyzed experimental data to produce comprehensive scientific reports, translating complex findings into structured insights.

Lembaga Pengelola Dana Pendidikan
Scholarship Awardee

June 2023 - August 2024 (1 year 3 months)

Edinburgh, Scotland, United Kingdom

Indonesia Endowment Fund for Education, abbreviated as LPDP (Lembaga Pengelola Dana Pendidikan), is a full-ride scholarship from the Indonesian Ministry of Finance for all Indonesian citizens. I pursued my Master's degree in Biotechnology at The University of Edinburgh with the support of LPDP as part of PK-211.

Welocalize

Universitas Pendidikan Indonesia

Research Assistant

August 2020 - November 2020 (4 months)

Bandung, Jawa Barat, Indonesia

Developed robust methodologies for plant-based DNA isolation, characterization, and detection using local materials for educational purposes.

Universitas Pendidikan Indonesia

Research Assistant

January 2020 - April 2020 (4 months)

Bandung, West Java, Indonesia

Oversaw laboratory operations, ensuring efficient organization and proper handling of reagents. and provided training to junior researchers on laboratory protocols.

Badan Tenaga Nuklir Nasional (BATAN)

Research Assistant

July 2019 - August 2019 (2 months)

Bandung, Jawa Barat, Indonesia

Synthesized radioactive compounds and investigated their stability, bioavailability, and absorption dynamics under storage conditions.

Education

The University of Edinburgh

Master of Science - MS, Biotechnology · (September 2023 - September 2024)

Universitas Pendidikan Indonesia

Bachelor of Science - BS, Chemistry · (August 2016 - August 2020)
