EDUCATION

Universitas Sumatera Utara - Information Technology

August/2023 - Present

- GPA: 3.92/4.00

SMA Negeri 13 Medan - Science

2020-2023

- GPA: 94.45/100

TECHNICAL SKILLS

- **Machine Learning:** Python, Pandas, Numpy, Scikit-learn, Matplotlib, TensorFlow, Keras.
- **Web Development:** HTML, CSS, JavaScript, PHP, MySQL, Laravel, NodeJS, TypeScript.
- **Mobile Development:** Flutter.
- **Cybersecurity:** Nmap, Wireshark, Burp Suite.
- **Operating Systems:** Windows, Linux (Ubuntu, Kali).
- **Design & Others:** Figma, Git, Github, Google Colab.

SOFT SKILLS

- Leadership
- Analytical & Critical Thinking
- Problem-Solving
- Time Management
- Collaboration & Teamwork
- Adaptability
- Attention to Detail

PROJECTS/EXPERIENCES

Coding Camp 2026 powered by DBS Foundation

AI Engineer Cohort (February/2026 – June/2026)

- Selected as an AI Engineer cohort in a competitive national program, completing 8 structured courses covering Python, Machine Learning, and Deep Learning fundamentals.
- Led and developed a 5-week capstone project (Karisma AI), an NLP-based system for CV analysis, applying deep learning techniques to solve real-world problems.
- Strengthened skills in data processing, model development, and Git-based collaboration, enhancing problem-solving in AI applications.

Agricultural Marketplace - PanenLokal

Fullstack Software Developer (October/2025 – December/2025)

- Developed a mobile-based agricultural marketplace connecting local farmers directly with buyers, eliminating intermediaries, using Flutter and Laravel within a team of 5.
- Implemented backend integration and secure data handling, ensuring smooth transactions and a reliable user experience across the platform.

ITLG USU

Laboratory Assistant (September/2025 – Present)

- Assisted in teaching Data Communication and Computer Networks, as well as Server and Network Security laboratory sessions.

Paguyuban KSE USU

Awardee (August/2025 – August/2026)

- Selected as a KSE Scholarship awardee from 27,000+ applicants nationwide.
- Contributed to the Interest and Talent Division by supporting programs such as Skill's Up (member development) and KSE Juara (national-level competitions in poster, essay, BPC).

HIMATIF USU

Head of Research and Development (August/2025 – May/2026)

- Led and coordinated research and development programs, including IT Insight, HIMATIF Quiz, and Learning with HIMATIF, to enhance students' academic knowledge and technological awareness.
- Organized and supervised flagship programs such as IT Showcase and mentorIT, providing mentoring sessions in UI/UX, Software Development, and Business IT Case with experienced student mentors.

Security Manpower Training (SMT) Program

Participant (July/2025 – August/2025)

- Selected as a participant in a competitive national cybersecurity program (3-week duration) organized by international collaboration with South Korea.
- Gained hands-on experience across 5+ security areas including Web, Network, OS, Malware Analysis, Cryptography, and OSINT and solved multiple CTF challenges.

Hall Booking and Management Web Application - Jambur Tamsaka

Project Manager & Back-End Developer (May/2025 – June/2025)

- Managed a team of 5 to develop a web-based booking system tailored for event and space management.
- Coordinated project timeline, delegated tasks, and ensured smooth team collaboration.
- Built and maintained the back-end system using Laravel 12, resulting in a fully functional CRUD-based platform delivered on schedule.

ACHIEVEMENTS/CERTIFICATIONS

- Coding Camp (AI Engineer Cohort) - DBS Foundation, 2026
- Laboratory Assistant - ITLG, 2025
- KSE Scholarship Awardee, 2025
- 3rd Place Winner Hackathon Siber Tangguh Bangsa Merdeka - Xtend Indonesia, 2025
- SMT Program - KISIA, 2025
- HackPoint Starter Red Team - HackPoint, 2025
- Top 24 Senior Competitive Programming - Codefest 001, 2025
- Top 1000 9th IndonesiaNEXT - Telkomsel, 2025
- Capture The Flag - Compfest, 2024
- Software Engineering Fundamental - RevoU, 2024
