Javas Alfreda Belva Yoga Pratama

Data & Marketing Analyst Manager | Business Analyst, Data Analyst, Data Governance
Jakarta, Indonesia

Summary

A highly skilled mathematician specializing in pure mathematics and analysis, with 5+ years of experience in Data Analytics and Data Governance across commerce, fintech, retail, and sharia business industries. Experienced in building and managing end-to-end data solutions — from data collection, cleaning, transformation (ETL), data modeling, advanced analytics, to dashboard development and strategic insight delivery.

Strong track record in translating complex datasets into actionable insights that drive business impact — increasing revenue, optimizing operational efficiency, and reducing costs through data-driven decision-making. Proactively identify performance gaps, uncover growth opportunities, and design analytical frameworks that support sustainable business expansion.

Highly experienced in automating analytical and operational processes to improve scalability, accuracy, and efficiency. Proficient in artificial intelligence development, machine learning, NLP, forecasting, and predictive analytics.

Technically skilled in Excel, Google Sheets, SQL, BigQuery, Python, ERP, Docker, Tableau, Looker, Redash, Amplitude, and Google Cloud Platform (GCP). Strong background in database management, data integration (ETL pipelines), cloud technologies, data governance frameworks, and data security implementation, with the ability to collaborate effectively across cross-functional teams.

Experience

Euromedica Group
Data & Marketing Analyst Manager
December 2025 - Present (6 months)
Jakarta, Indonesia

Data Science Indonesia
5 years 1 month

Community Development Division
May 2023 - Present (3 years 1 month)

Data Science Indonesia is the largest data scientist community in Indonesia and was established in May 2015 to champion data-driven technology in the spirit of public-private partnership as well as to engage both technical and non-technical audiences to practice the culture.

My responsibilities at DSI:

1. Reactivate members to ensure they remain engaged with DSI.
2. Build relationships and maintain interactions with members to keep them connected to DSI.
3. Organize various events such as Kopi Darat, Melek for Member, DSI MeetUp, and more.

Research Division
May 2021 - April 2023 (2 years)
Indonesia

My responsibilities at DSI:

1. Analyze issues occurring in Indonesia, then obtained existing data to process and derive conclusions and solutions for these problems by creating machine learning models.
2. Collaborate with the government and relevant institutions to support the organization's sustainability.
3. Provide training and information about data to the Indonesian people.

Projects:

1. Analyze sentiment public related to the implementation of Semarang government policies during COVID-19.

LinkAja
Senior Product Analytics
June 2024 - November 2025 (1 year 6 months)
Jakarta, Indonesia

My responsibilities:

1. Data Governance:

- Understand and implement GDPR, UU Perlindungan Data Pribadi (PDP), and ISO 27001 within the company's activities.
- Develop multiple Standard Operating Procedures (SOPs) and documentation related to data governance.
- Provide and review access to GCP, Snowflake, Redash, and Looker for users based on their needs and in compliance with applicable standard procedures.

2. Product Analytics:

- Support end-to-end product development by assisting in defining metrics set by the Product team.
- Identify trends, patterns, and anomalies in data.
- Develop automation systems to reduce manual processes for various projects.
- Create monitoring dashboards for multiple products.
- Conduct assessments of services before inserting them into BigQuery and ensure data availability.
- Build data warehouses and/or datamarts based on the team's needs.
- Identify insights and provide recommendations required by the team.

Projects:

1. Developed an Automation Flagging System at LinkAja
2. Built a Streamlit Dashboard on Snowflake
3. Conducted a Promo Affinity Project at LinkAja
4. Built a BigQuery – GitLab Repository Framework
5. Developed a Website Scraping Project
6. Created a Monitoring System for All Service Performances

Sekolah.mu

Data Analyst Mentor

February 2024 - December 2024 (11 months)

Jakarta, Indonesia

Teach and assist mentees based on the curriculum such as: Fundamentals of Data Analysis, Spreadsheets, SQL, Python, Tableau, and Basic Machine Learning.

Digital Talent Scholarship

Data Analyst Instructor

May 2024 - July 2024 (3 months)

Jakarta, Indonesia

Teach and assist mentees based on the curriculum such as: Fundamentals of Data Analytics, Spreadsheets, SQL, Python, R, and Tableau.

Bukalapak

2 years 6 months

Tech Audit & Compliance

October 2023 - June 2024 (9 months)

Jakarta, Indonesia

My responsibilities:

1. Evaluate Compliance:

- Ensure that companies comply with all relevant rules and policies related to technology and information security, including compliance with industry standards, government regulations, and internal company policies.

2. Identify Risks:

- Identify potential risks related to information and technology security that could occur in company operations, including risks such as data breaches, cyber attacks, loss of sensitive information, and others.

3. Provide Recommendations:

- Offer recommendations for security improvement and compliance enhancement, involving drafting recommendations to address findings from audits and fixing weaknesses in information technology systems and processes.

4. Provide Training & Education:

- Provide training and education to employees on best practices in the use of information technology, cyber security, and compliance with company policies.

5. Incident Response:

- Respond to and manage information security incidents that occur, such as cyber attacks, data theft, or other security breaches, involving investigation, system recovery, and implementation of further prevention measures, including conducting Disaster Recovery (DR) Testing, Backup & Restore Testing, etc.

6. Communication:

- Assist in personal data audits, personal data mapping, and annual tech risk assessments within the company.
- Collaborate effectively with 30+ tribes and 15+ business units at Bukalapak Holding Company.

Projects:

1. Developed an Automation Fraud Checking System at Bukalapak
2. Developed an Automation GCP Hardening Checking System at Bukalapak

- 3. Developed an Automation System Related to Email Data Loss Prevention
- 4. Conducted the Tech Annual Risk Assessment Project at Bukalapak

Business Assurance - Data Analytics

January 2022 - June 2024 (2 years 6 months)

Jakarta, Indonesia

My responsibilities:

1. Data Governance:

- Understand and implement GDPR, UU Perlindungan Data Pribadi (PDP), ISO 27001, and ISO 37001 within the company's activities.
- Establish procedures to handle data incidents, including security breaches or data losses.

2. Security:

- Create several Standard Operating Procedures (SOPs) related to data security and fraud monitoring.
- Classify the security level of all data in the company.
- Establish data access to a wide variety of business systems and provide the team with appropriate access.
- Collaborate with other data teams to ensure the quality and security of the company's data in accordance with applicable procedures.

3. Database Management:

- Expertise in relational and non-relational database systems (RDBMS and Non-RDBMS).
- Knowledge of OLAP and OLTP concepts.

4. Data Integration:

- Knowledge of ETL processes and data integration tools.

5. Data Analysis:

- Ability to analyze and simplify complex problems within the company into more manageable steps and communicate them in understandable language for the team.
- Design efficient data solutions.

6. Data Reporting:

- Report the processed results to stakeholders using Spreadsheet, Google Slides, or Looker Studio.
- Create interactive dashboards using Looker Studio.
- Create systematic documentation using GitLab and Confluence.

7. Project Management:

- Ability to manage and prioritize multiple projects and tasks.

- Analyze and understand fraud, anomalous actions, and other unwanted activities to enhance detection and response capabilities based on business operations at Bukalapak.
- Develop an automation system related to Email Data Loss Prevention.
- Create and automate 36 fraud monitoring processes to check potential fraud possibilities using Spreadsheet, BigQuery, Pub/Sub, Docker, Python, GitLab, and Airflow, resulting in a reduction of checking time by up to 90%.
- Develop a GCP Hardening script using Python and GitLab for enhanced cloud security.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Machine Learning Instructor & Mentor

July 2023 - April 2024 (10 months)

Indonesia

Teach and assist mentees based on the curriculum such as: Python & GitHub, Deep Dive Into Data Analyst, Python IT Automation, Machine Learning (Supervised and Unsupervised Learning), TensorFlow, etc.

Rumah Kepemimpinan

CRM Data Analyst

April 2021 - January 2023 (1 year 10 months)

Jakarta Selatan, Jakarta, Indonesia

Rumah Kepemimpinan is a strategically government-owned institution as well as a philanthropic institution (zakat, infaq, charity, and endowments). The beneficiaries of this institution are intended for the best student resources, with the goal of cultivating future young leaders. Beneficiaries at Rumah Kepemimpinan are educated with character values of humility, open-mindedness, moderation, objectivity, and a commitment to always achieve and contribute, fostering a better and more dignified Indonesia.

My responsibilities at Rumah Kepemimpinan:

1. Determine and analyze target markets and provide advice based on previously processed data.
2. Create customer classifications to determine the appropriate products for each customer.
3. Collaborate with the marketing team to optimize product sales.
4. Collaborate with all relevant teams to expand the acquisition of potential customer data.
5. Improve data quality and address potential data issues.
6. Maintain and manage all of the company's databases.

7. Report the processed results to stakeholders using Google Slides or Looker Studio.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
1 year 6 months

Machine Learning Facilitator
February 2022 - July 2022 (6 months)
Indonesia

1. Weekly Consultation (Includes conducting team bonding activities and games, monitoring progress, informing students of tasks and deadlines, following up on previous sessions, addressing feedback, and channeling it to the Bangkit Team).
2. Tech/Softskills ILT (Involves creating and delivering learning materials based on the curriculum).
3. Miscellaneous (Involves sharing difficulties or problems identified within the group, seeking support and advice from the Bangkit Team, receiving information and announcements to be shared with students, checking and verifying students' Daily & Weekly Logbooks, supporting students with lagging progress, providing advice on career preparation, certifications, and other personal growth aspects).

Machine Learning Path Student
February 2021 - January 2022 (1 year)
Indonesia

Education programs led by Google, Gojek, Tokopedia, and Traveloka prepare students with in-demand skills and tech certifications, especially in the machine learning path. These programs help students learn key concepts and applications of AI to solve a wide range of machine learning problems, with specializations including Google IT Automation with Python Professional, Google IT Support, Mathematics for Machine Learning, Deep Learning AI TensorFlow Developer Professional, TensorFlow: Data and Deployment Specialization, Structuring Machine Learning Projects, and others.

My Project:

1. Build apps with a machine learning model to detect spoiled and fresh fruits.

NOL KOMA
Co-Founder and COO
February 2021 - April 2022 (1 year 3 months)
Indonesia

Nol Koma Indonesia is a one-stop platform to accelerate the self-development of young Indonesians, especially Gen Z, by providing e-learning products that are accessible, affordable, and inclusive.

My responsibilities at Nol Koma:

1. Create a grand design, made decisions and policies, and led all the company data sections.
2. Create a new program and made an evaluation.

Aktiv.co.id

Data Scientist

July 2021 - October 2021 (4 months)

Yogyakarta, Indonesia

Aktiv is a health platform that offers various health services through gadgets. It provides features such as daily symptom monitoring, health education, and doctor consultations, all in one application.

My responsibilities at Aktiv:

1. Build and manage the database using MongoDB.
2. Evaluate app and dashboard performance.
3. Create surveys to optimize the target market.
4. Create a data analyst report using Tableau.

Digital Talent Scholarship

Cisco - Big Data Using Python Student

July 2021 - September 2021 (3 months)

Indonesia

The competency development training program, led by the Ministry of Communication and Information, focuses especially on Python learning for the applications of big data, machine learning, the internet of things, and cybersecurity.

My Project:

1. Create machine learning models to detect COVID-19 using X-ray images.

SMP Muhammadiyah PK Kottabarat Surakarta

Teacher of Design

August 2020 - July 2021 (1 year)

Surakarta, Jawa Tengah, Indonesia

Create a curriculum and design teaching materials in accordance with the established curriculum.

Universitas Sebelas Maret

Assistant Lecturer

February 2020 - July 2021 (1 year 6 months)

Surakarta, Central Java, Indonesia

1. Assistant Lecturer in Advance Discrete Mathematics Course Feb-Jul 2021.
2. Assistant Lecturer in Advance Graph Theory Course Feb-Jul 2021.
3. Assistant Lecturer in Introductory Graph Theory Course Agt 2020-Jan 2021.
4. Assistant Lecturer in Discrete Mathematics Course Agt 2020-Jan 2021.
5. Assistant Lecturer in Graph Theory Course Feb-Jul 2020.

BEM FMIPA UNS

President

December 2019 - January 2021 (1 year 2 months)

Surakarta, Central Java, Indonesia

My responsibilities at BEM FMIPA UNS:

1. Lead and manage the organization.
2. Create programs for the benefit of students in the Faculty of Mathematics and Natural Sciences.
3. Collaborate with other organizations/institutions to make a positive impact on the surrounding community.

PT PLN (Persero)

Planning Division

January 2020 - February 2020 (2 months)

Provinsi Jawa Tengah, Indonesia

My responsibilities at PLN:

1. Collect data from other teams.
2. Analyze and predict the amount of energy production, the number of kWh sold, and customer counts to optimize PLN's performance in the UP3 Surakarta area from 2020 to 2024.
3. Create and present the results to management.

Education

Universitas Sebelas Maret

Bachelor, Mathematics · (2017 - 2021)

SMA N 1 Gombong
SMA, MIPA · (2014 - 2017)
