Top Skills

Mandarin
Intercultural Communication
GenIO DataExchange

Languages

English (Full Professional)
Indonesian (Native or Bilingual)

Certifications

TensorFlow: Data and Deployment Specialization
Google IT Automation with Python Specialization
IELTS Academic Band 7.0
Mandarin Chinese - Level 1 (Basic)

Publications

Creating Smart Parking System to Support Smart City Concept
Automatic Indonesian License Plate Recognition with YOLO as Object Detector

Kimberley Blessinda

Data Analyst at Qoala | Data Enthusiasts
Indonesia

Experience

Qoala
Data Analyst
September 2022 - Present (3 years 9 months)
Jakarta, Indonesia
Part of Digital Business Partnership - Qoala Indonesia

Projects:

- Integrated Customer Journey Analysis: Executed a detailed analysis of customer journeys using RFM analysis and machine learning, delivering strategic insights to the Board of Directors that optimized our cross-selling and up-selling initiatives.
- Targeted Fraud Detection and Analysis: Monitored transactions and customer behavior through a comprehensive fraud detection report, pinpointing and addressing fraudulent activities across agents, partners, and customers.
- Claim Processing Time Analysis: Conducted an in-depth analysis of claim turnaround times to identify bottlenecks from partners, our company, and customers, and proposed strategies to optimize and expedite the process.
- Automated Financial Reconciliation Reporting System: Developed and implemented automated reporting to compare financial records for audit. This innovation reduced the monthly reconciliation time from 1 hours to 5 minutes on a daily basis.
- AI-Driven STNK or Surat Tanda Nomor Kendaraan (Vehicle Registration Certificate) Insurance Claim: Implemented an Automatic Vehicle Registration Certificate Recognition using an AWS-based OCR to accurately detect and record any details contained on the certificate.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
Machine Learning Instructor
September 2023 - December 2024 (1 year 4 months)

I taught over 1000+ cohorts with the average feedback of 4.81/5.0

Subjects I teach:

1. Data Analytics

Introduction to Data Analysis, Basic SQL with BigQuery, Data Visualization with Tableau, Basic Data Storytelling.

2. Introduction to Machine Learning

Machine Learning, Introduction to Supervised Learning, Linear Regression Model, Logistic Regression Model.

3. Unsupervised Learning and Basic ANN

Clustering, Recommendation System, Content-Based Filtering, Collaborative Filtering, Overview ANN

4. Advanced Technique in Deep learning with TensorFlow

Image Classification with CNN model, Introduction to NLP, RNN, LSTM and Time Series Prediction.

5. TensorFlow Developer Certification Preparation

ParkirMana

Artificial Intelligence Engineer

September 2021 - February 2022 (6 months)

Remote

Improved Performance of The License Plate Detection Model:

- Compare YOLO v4 (mAP score of 88.95% with detection time 6ms) and YOLO v5 (mAP score of 87.40% with detection time 13.5ms)

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
Machine Learning Cohort

February 2021 - July 2021 (6 months)

Indonesia

Notable Courses: Automation with Python, Machine Learning: Linear Algebra, Data Deployment, TensorFlow Developer

Education

Universitas Katolik Parahyangan (UNPAR)

Bachelor of Science - BS, Mathematics
