Abram Setyo Prabowo

Internationalization & Partnership Officer at BINUS University
Kota Tangerang, Banten, Indonesia

Ringkasan

As Internationalization Partnership Program Officer at the School of Computer Science, BINUS University, I am dedicated to encouraging and maintaining strategic collaborations that contribute to the growth and success of the institution. My role includes identifying, building and fostering relationships with local and international organizations that are aligned with the mission and vision of BINUS so that good collaboration is established

This collaboration has created opportunities for joint research projects, faculty and student exchanges, and industrial internships, enhancing the academic experience and providing practical exposure and career development prospects for BINUS lecturers and students.

In addition, I actively facilitate the implementation of collaborative programs, ensuring effective communication and coordination between internal stakeholders and external partners. This has resulted in the successful conduct of joint events, conferences and workshops, encouraging knowledge sharing and cross-pollination of ideas.

If you are interested in exploring partnership opportunities or discussing potential collaborations, I invite you to connect with me. Together, let's create synergy, drive innovation, and shape the future of education and industry.
