Nesya Dwi Cahyani

Undergraduate Mathematics Student at Universitas Airlangga | Data Enthusiast | Exploring Data Analytics, Data Science & Machine Learning
Indonesia

Ringkasan

Nesya Dwi Cahyani is an undergraduate Mathematics student at Universitas Airlangga with a strong interest in data, technology, and research. She is currently developing hands-on skills in Data Analysis, Data Science, and Machine Learning through Coding Camp 2026 powered by DBS Foundation at Dicoding Indonesia. Beyond academics, she has demonstrated leadership and organizational skills through active involvement in BEM FST and HIMATIKA UNAIR, where she managed events, coordinated teams, and handled financial administration. She is passionate about leveraging data to generate meaningful insights and is continuously building her technical skills in Python, data visualization, and machine learning to prepare for a career in the data and technology industry.

Pengalaman

Dicoding Indonesia

Data Scientist

Februari 2026 - Present (4 bulan)

Индонезия

Participating in Coding Camp 2026 powered by DBS Foundation, an intensive industry-oriented technology program focused on developing practical skills in Data Science, Machine Learning, and Data Analytics through project-based learning and real-world case studies.

Currently developing competencies in:

- Data Analysis & Exploratory Data Analysis (EDA)
- Data Cleaning, Transformation, and Preprocessing
- Machine Learning Fundamentals
- Statistical & Mathematical Analysis for Data Science
- Data Visualization & Interactive Dashboard Development
- ETL Pipeline & Data Processing

- Python Programming for Data-Driven Solutions

Working with tools and technologies including Python, Pandas, NumPy, Scikit-learn, Streamlit, Jupyter Notebook, and Google Colab to build analytical and data-driven solutions.

The program also emphasizes problem-solving, teamwork, communication, and collaborative capstone project development aligned with industry standards.

BEM FST Universitas Airlangga

Scientific Staff

Januari 2025 - Januari 2026 (1 tahun 1 bulan)

Сурабая

Served as a Staff of the Research and Development Division in the Mathematics Student Association, contributing to academic and scientific development programs within the organization.

Acted as the Person in Charge (PIC) of the PKM Competition for FST Cup 2025, with responsibilities including:

- Coordinating the preparation and execution of the competition
- Managing communication and collaboration with committees and participants
- Organizing event timelines and operational needs
- Supporting the development of academic and competitive activities for students
- Ensuring the event ran effectively and according to plan

Through this experience, I developed skills in leadership, event management, teamwork, communication, problem-solving, and project coordination.

Himpunan Mahasiswa Matematika UNAIR (HIMATIKA UNAIR)

Treasurer II

Februari 2024 - Februari 2025 (1 tahun 1 bulan)

Сурабая

Served as Treasurer II of the Mathematics Student Association, assisting in organizational financial management and supporting the Treasurer I in administrative and budgeting activities.

Responsibilities included:

- Managing and recording organizational cash funds
- Assisting in financial administration and expense tracking

- Supporting budget management for organizational programs and events
- Helping prepare financial reports and maintaining transaction records
- Coordinating with committees regarding financial needs and reimbursements

This role strengthened my responsibility, attention to detail, teamwork, communication, and organizational management skills.
