| Small Business Owner | Administration | Accounting | Finance |
Digital Marketing Enthusiast

Medan, Sumatera Utara, Indonesia

Ringkasan

I am a recent Accounting graduate from Universitas Muhammadiyah Sumatera Utara with a strong background in business and organizational involvement. Since 2017, I have been managing an online business, which has sharpened my skills in operational management, digital marketing, content design, and customer communication.

I am also a certified intern alumni of the Kampus Merdeka (MBKM) program, where I gained valuable hands-on experience in administration and data processing within the banking and plantation industries. Outside of academics and business, I have actively participated in student organizations and committees, further strengthening my abilities in public speaking, event management, teamwork, and leadership.

I am passionate about contributing to the fields of administration, finance, marketing, and digital content — and always eager to grow both personally and professionally in dynamic work environments.
