Atsifa Z.

Public Health | AK3U Certified | Health Promotion & Education | HSE Enthusiast | Administrative | Data Analytics
Bekasi, West Java, Indonesia

Summary

Public Health graduate with AK3 Umum certification from KEMNAKER RI and a strong interest in Occupational Health, Safety, and Health Promotion. Experienced in hazard identification, risk assessment (HIRADC), workplace health promotion, and safety management systems through academic background, certified training, and field experience. Passionate about creating safe, healthy, and productive work environments through both safety implementation and preventive health education. Experienced in conducting health awareness programs, developing educational media, and supporting occupational health initiatives for communities and workplace environments. Skilled in administrative reporting, compliance monitoring, and data visualization using Microsoft Excel and Power BI to support operational efficiency and data-driven decision making. Known as a proactive, detail-oriented, and fast-learning individual with strong communication, analytical, and teamwork skills. Contact me at: atsifazsazsa00@gmail.com

Experience

RSUPN Dr. Cipto Mangunkusumo

Data Managament

November 2025 - May 2026 (7 months)

MagangHub Batch 2 from Kementerian Ketenagakerjaan Republik Indonesia.

My role is Data Management Intern in Tim Kerja Hukum dan Hubungan Masyarakat. My responsibilities included:

- Managed daily intake and archiving of 30–60 legal and administrative records (MoU, PKS, SK), ensuring full compliance with institutional standards and improving inter-departmental document flow
- Supported monthly KPI reporting for the Legal Division by consolidating performance data, contributing to internal audit readiness and administrative compliance tracking

- Proposed and implemented a revised document classification system covering 500+ inactive records, streamlining archiving workflows and reducing retrieval time by 40%
- Maintained 100+ legal and administrative documents in accordance with institutional procedures
- Participated in coordination meetings regarding public complaints on waste and environmental issues, assisting with documentation

Puskesmas Perwira

Public Health Intern

August 2023 - September 2023 (2 months)

- Managed front desk operations and medical records for over 100 patients weekly, ensuring efficient service and accurate documentation
- Supported comprehensive health screenings for over 100 students, identifying early health concerns and promoting preventive interventions.
- Delivered a hypertension health awareness campaign that educated over 15 visitors and increased understanding of preventive measures
- Identified hypertension as a priority health issue by analyzing community data and consulting with leadership
- Assisted in delivering a school-based health education session on the dangers of smoking
- Created media design to raise awareness on disease prevention and healthy workplace habits

Puskesmas Ciater

Health Promotor Intern

February 2023 - June 2023 (5 months)

- Organized a health awareness campaign on ISPA, educating over 15 health center visitors through interactive sessions and increasing public awareness
- Created and distributed educational media leaflets to health center visitors, reinforce key health messages
- Supported health education on child growth and development at Posyandu, enhancing community understanding and awareness
- Created a workplace safety video for the Community Health Center as part of an internal campaign, resulting in improved staff understanding of safety procedures.

Education

Universitas Muhammadiyah Prof. Dr. Hamka

Bachelor's degree, Public Health · (September 2020 - December 2024)
