Haikal Fairuzi Maulana

Founder of Creagen | Digital Business Strategist | Software & AI
Engineer | AI Automation Specialist
Banda Aceh, Aceh, Indonesia

Summary

I am a Software & AI Engineer, Digital Business student, and the Founder of Creagen, passionate about bridging the gap between innovative technology and real-world business results. Specializing in modern web development and AI automation workflows, I build scalable digital solutions—from leading the development of the JakLom smart tourism app to crafting custom AI systems for diverse clients. Driven by a philosophy of constantly challenging my own ideas to create better systems, I focus heavily on delivering seamless user experiences and driving tangible growth, whether through my agency work, academic research, or building the local tech community in Aceh.

Experience

Coding Camp powered by DBS Foundation
4 months

AI Engineer Awardee Scholarship Coding Camp 2026 By DBS
Foundation and Dicoding
February 2026 - Present (4 months)
Indonesia

Successfully completed an intensive end-to-end AI Engineering track, moving from foundational principles to deploying production-ready models. My focus was on building anti-fragile systems that solve real-world business gaps.

Key Projects & Technical Milestones:

SkillMap AI (Capstone): Architected the backend using FastAPI to create a career mapping engine. Implemented automated skill-gap analysis to provide personalized learning roadmaps.

Computer Vision: Developed a Food Image Classification system using CNN (Sequential API) with >85% accuracy, optimized for mobile deployment via TF-Lite.

Consumer Intelligence: Built a Smart Content Recommendation engine and performed Clustering & Classification on banking data to identify high-value customer segments.

Market Strategy: Engineered a Simple ETL pipeline for Fashion Studio Competitor Analysis, transforming raw market data into actionable pricing insights.

Forecasting: Applied Time Series Forecasting to predict future trends, enabling proactive rather than reactive business scaling.

PT Bank Syariah Indonesia Tbk.

Awardee BSI Inspirasi Scholarship 2025

November 2025 - Present (7 months)

Indonesia

As a selected Scholar and Coordinator for the BSI Inspirasi program, I actively lead and mentor my cohort to foster a collaborative and high-achieving community. Beyond receiving this prestigious educational grant from Bank Syariah Indonesia, I take a proactive approach to ensure the program's developmental initiatives create a tangible impact for all participants.

Key Responsibilities & Activities:

- Cohort Leadership: Organizing activities, managing communications, and mobilizing fellow awardees to build a strong, supportive network.
- Peer Mentoring: Guiding participants through the program, facilitating discussions on academic excellence, and supporting their professional growth.
- Program Facilitation: Acting as a core liaison between the awardees and program organizers to ensure the smooth execution of leadership training, financial literacy workshops, and social impact projects.
