Petrus Soetandio

Talent Acquisition Specialist at IBMC | Tech & Non-Tech Recruiter | Ex-Glints
Jakarta Metropolitan Area

Summary

As an experienced recruiter with around 4 years in both IT and non-IT recruitment, I have developed a strong track record of successfully handling internal and external recruitment needs. My career includes working with one of the largest recruitment agencies in Southeast Asia, where I was recognized as the #1 recruiter in Indonesia and ranked in the Top 3 across Southeast Asia.

Throughout my career, I have honed my skills in effective communication, time management, and building lasting relationships with clients and candidates. I specialize in recruitment consulting, headhunting, and customer relationship management, and have a strong passion for delivering top talent that aligns with business needs.

With a Bachelor's degree in Hospitality Management from Trisakti Tourism University, I bring a diverse skill set to talent acquisition, ensuring that I understand both the technical and interpersonal aspects of recruitment. My commitment to excellence and efficiency in the recruitment process drives my success in helping organizations find the right people for the right roles.

Experience

IBMC

Talent Acquisition Specialist
March 2024 - Present (2 years 3 months)
Bali, Indonesia

IBMC is a provider of HR outsourcing, accounting services, business consulting, incorporation assistance, market research, and Indonesian business certification support. We specialize in helping businesses navigate the complexities of operating in Indonesia, providing tailored solutions to meet their needs and drive success.

As a Talent Acquisition Specialist at IBMC, I am responsible for managing the end-to-end recruitment process, focusing on identifying, attracting, and hiring top talent across various industries. My role involves close collaboration with hiring managers and leadership teams to ensure alignment with company goals while building a strong team of professionals.

Key responsibilities include:

- Managing full-cycle recruitment for IT and non-IT roles, from entry-level to executive positions, across multiple departments.
- Developing and executing strategic sourcing strategies to attract the best candidates through job boards, social media, direct outreach, and networking.
- Conducting interviews, managing candidate pipelines, and providing recommendations to hiring managers.
- Creating a seamless and positive candidate experience from initial contact through onboarding.
- Collaborating with hiring managers to define role requirements, ensuring successful hires that align with company culture and goals.
- Conducting market research to analyze industry trends and stay ahead of recruitment needs.
- Preparing salary package research and competitive compensation analyses for each position, ensuring alignment with market standards.
- Continuously improving recruitment processes and strategies to drive efficiency and quality of hires.
- Managing recruitment reporting, tracking metrics, and ensuring accurate data.

ATech Solution

Senior Recruiter

June 2023 - March 2024 (10 months)

Hong Kong SAR

Atech Solution Limited specialize in providing an excellent software development, web application development and excellent IT candidates.

As a Senior Recruiter at ATech Solution, I specialize in sourcing, attracting, and hiring top-tier technical talent to meet the evolving needs of the business. I work closely with hiring managers and senior leadership to define technical hiring requirements, ensuring that we bring in the right candidates who align with both the technical and cultural needs of the company.

Key responsibilities include:

- Leading full-cycle recruitment for technical roles, including software engineers, data scientists, system architects, and other specialized positions.
- Developing and executing targeted sourcing strategies to find qualified candidates through job boards, social media, networking, and direct outreach.
- Conducting in-depth technical interviews, working with hiring managers to assess candidate skills and cultural fit.
- Collaborating with hiring managers and technical teams to refine job descriptions, ensure role alignment, and address specific team needs.
- Managing the candidate experience from initial contact through offer negotiation and onboarding, ensuring smooth communication at all stages.
- Conducting market research to stay updated on industry trends, understanding the competitive landscape, and aligning recruitment strategies accordingly.
- Performing salary package research to ensure competitive compensation for each technical role, benchmarked against industry standards.
- Continuously optimizing recruitment processes, identifying areas for improvement to enhance efficiency and candidate quality.
- Tracking and reporting recruitment metrics, providing insights to improve future hiring strategies.
