Ringkasan

I am a visionary and solutions oriented person who firmly believes in a sustainable future and the potential of youth to create real world impact. As a Sharia Business Management student who has a strong curiosity and love for learning. looking for opportunities to expand knowledge and skills to dedicate himself to the progress of the economic industry.

My election as the Planning Generation Ambassador for North Sumatra Province in 2023 means that I have a high level of concern in the areas of Humanity, Education, Youth, Gender and Mental Health issues. My greatest concern for youth issues became my motivation to be part of the Task Force for Preventing and Handling Sexual Violence at the Muhammadiyah University of North Sumatra, where more than 100 lecturers and students from North Sumatra participated to discuss and create solutions.

My experience as a leader in an organization has also honed my leadership, critical thinking skills, and complex problem solving skills. Additionally, it taught me how to organize my thoughts when solving problems, how to communicate them effectively through others, and how to manage people with different backgrounds to achieve the same goal.
